Hello, I have a problem with my Adobe Premiere Pro CC 2016 in Windows. Please help me to solve it. I am taking screenshot of the problems and attach it to this message. 1. How I disable automatic copy check on all my destination files (with History page). I just want to "paste and go" without losing my copy process. 2. How I make sure that the user uses the actual text color instead of RGB-based one. or any color I chose? I can click/select any text area, and then choose the text color I want. The answer for both 1 and 2 is the same -- 'Use Preset Color'. 3. Premiere Pro CC 2016, Microsoft Windows 8.1. PS: I can send the files by sending to your email address or my school website. Thanks for your help, Tinasheef Faisal
