full 477 pixrecovery 3.0 full 477Q: Check whether value stored in column in SQL Server is null or empty string? I want to check whether a
value is empty or null in SQL Server. I don't want to do this: SELECT * FROM MyTable WHERE ISNULL(Name) I want this: SELECT *
FROM MyTable WHERE Name = "" Is there an equivalent of LIKE %? SELECT * FROM MyTable WHERE Name LIKE " But this is not
allowed. A: To check whether a field or column value is null or empty you can use ISNULL or COALESCE or ISEMPTY. SELECT * FROM
MyTable WHERE Name ISNULL(NULL,") = ""; OR SELECT * FROM MyTable WHERE (Name ISNULL(NULL,") = " or Name = ") The
problem with your query is that it can never return any result because a column's value can never be the same as null! From: ISNULL vs
COALESCE in SQL Server 570a42141b
