Efficient Calendar is a comprehensive and reliable software solution worth having when you need to organize calendar, tasks and events, thus managing your time in a more efficient way. It helps you to schedule and plan various meetings and events, set their priority and get reminded each time the specified date or hour is reached. The application provides you with multiple calendar views such as Day, Week, Month or Year and it enables you to arrange and track all the events the way you want. The main window of the program displays a Calendar View which sums up the events created for the current month, if any. It allows you to add new to-do lists, meetings, appointments, events or tasks by double-clicking on a specific day. This way, you can specify the subject and choose the location where the event will occur, set the start and the end time, modify the priority according to your whims and insert new comments and attachments. After that, Efficient Calendar will remind you on time of the occurring events so you will never miss the appointments again, nor forget about important tasks or projects. By accessing the left panel of the application, you are able to view all the calendar events, or simply add a new recurring one, preview all the available tasks for the current week, month or with high priority, as well as manage the deleted events and tasks. The Tools menu enables you to search for specific events or meetings, import or export tasks to CSV or HTML format, as well as import international holidays and check for duplicate ones. Additionally, you can sort all the appointments and important tasks by date, subject, location or attachment, change the interface style and backup all the information with ease. All in all, Efficient Calendar proves to be an effective solution whose main purpose is to help you organize all your important events, tasks, appointments and to-do lists the way you want and manage your time more efficiently. ToDoList Plus is a todo list application designed to improve your efficiency by helping you to organize and manage your daily tasks and projects. With the help of this smart todo list software, you will be able to add tasks, and modify or delete them at any time, set their priority according to the importance of the task, and track the progress of the task in order to get a visual insight into the completion of the task. The application contains many features that allow you to perform a variety of operations easily and effectively. For example, you can insert new tasks, add
