Once upon a time on the west, in the very beginning of time a giant rose from out of the sea and drowned the world. As the giant rose back down into the sea and took with it all life the land was left barren and covered in sand with only desert and sea for thousands of miles and reaching to the horizon. This is how the world began and it's history in the main ever since is told by the people who saw it happen to them and their children and so on and so on. It has been like this for thousands of years and to be honest I don't really know how many it will be exactly, it can't be that much but it could be quite a lot. You will be dropped on this world as a baby and you will start at a house with very basic equipment on. The game starts you out with a small pack that you will look through to try and find the most important things to survive in the desert. In the desert are some useful features such as water and sand which you will need for a whole host of equipment and most importantly building materials for your house. The early game will show you what you can do and you will be able to progress through the game after level 3 or level 4 depending on the difficulty you set it at. This will show you what you can do in the game and will help you unlock the game features and the ending. The game features you will enjoy will be various levels and events that you will be able to play through throughout the game. The game will contain 10 bosses who you will fight throughout the game and will be the final boss. Each boss will have 2 or 3 different endings to each boss. Bosses 1-8 are 4 different chapters and bosses 9+ are the final boss. The bosses will come at you in waves with each boss being progressively stronger than the last one and will have 2 or 3 different endings to each boss. Be sure to make use of the boss fight tips you will get from the game before you begin each one. After you defeat a boss, you will be able to use their loot to try and use it with your own equipment to unlock the boss chests, which will contain armour, weapons and more to get a better score. If you feel like you have collected enough trophies you will find a little bonus in the final boss chest.
